hey there! i'm melanie de leon.

I'm a product marketing and growth leader. I help SaaS, emerging tech, digital media, and Fortune 500 consumer companies build AI-driven go-to-market engines that connect product, customer insight, and revenue outcomes.

I've scaled a marketplace from $0 to 8-figure revenue, lifted marketing efficiency 47%, and led brands like Warner Bros., Disney/ABC, Sony Pictures, CBS, CNN, Discovery, HSN, Kraft, Nestlé, GSN, and G4.

I live in the Los Angeles Metropolitan Area and I'm open to VP Marketing / VP Product roles. Email me, find me on LinkedIn, or call 310-736-5993.

strategic, analytical, and creative – focused on what matters

A rare combination of product marketing, growth leadership, and hands-on product strategy. Melanie embeds PLG and lifecycle optimization directly into the product experience and translates complex tech into clear value props.

Tenacious problem-solver who cuts through noise, focuses teams on outcomes, and rolls up her sleeves. Equally at home with Product, Engineering, Sales, and Operations.

Through-line: digital product innovation — how breakthrough products are positioned, experienced, and adopted. Now focused on helping AI-driven products grow in signal-constrained ecosystems where precision, experimentation, and storytelling must work together.
