STRATEGIC, ANALYTICAL, AND CREATIVE

Focused on what matters.

A rare combination of product marketing, growth leadership, and hands-on product strategy. Melanie embeds PLG and lifecycle optimization directly into the product experience and translates complex tech into clear value props.

Tenacious problem-solver who cuts through noise, focuses teams on outcomes, and rolls up her sleeves. Equally at home with Product, Engineering, Sales, and Operations.

Through-line: digital product innovation — how breakthrough products are positioned, experienced, and adopted. Now focused on helping AI-driven products grow in signal-constrained ecosystems where precision, experimentation, and storytelling must work together.

WHAT SHE BRINGS TO A VP ROLE

Product Marketing & Positioning

Segmentation, value props, messaging frameworks, packaging, and competitive intelligence that sharpen differentiation.

AI-Driven Omnichannel GTM

Full-funnel execution across paid social, SEM, influencer/UGC, affiliate, programmatic, SEO/ASO/AEO, and lifecycle.

Product-Led Growth & Lifecycle

Onboarding optimization, activation, expansion, and retention loops embedded directly in the product experience.

Growth Analytics & MarTech

GA4, MMP, CRM, CMS, MMM, incrementality testing, and experimentation systems for real attribution and faster learning.

Team Leadership & Scale

Built and led PMM, growth, lifecycle, creative, content, and analytics teams plus agency partners with full P&L ownership.

0→1 Launches & Transformation

From CPG mobile apps (Top 5 Lifestyle, Clio) to streaming, interactive TV, ecommerce, and second-screen experiences.

Strategic, analytical, and creative — focused on what matters

A rare combination of product marketing, growth leadership, and hands-on product strategy. Melanie embeds PLG and lifecycle optimization directly into the product experience and translates complex tech into clear value props.

Tenacious problem-solver who cuts through noise, focuses teams on outcomes, and rolls up her sleeves. Equally at home with Product, Engineering, Sales, and Operations.

Through-line: digital product innovation — how breakthrough products are positioned,

experienced, and adopted. Now focused on helping AI-driven products grow in signal-constrained ecosystems where precision, experimentation, and storytelling must work together.

Strategic, analytical, and creative — focused on what matters.

A rare combination of product marketing, growth leadership, and hands-on product strategy. Melanie embeds PLG and lifecycle optimization directly into the product experience and translates complex tech into clear value props.

Tenacious problem-solver who cuts through noise, focuses teams on outcomes, and rolls

up her sleeves. Equally at home with Product, Engineering, Sales, and Operations.

Through-line: digital product innovation — how breakthrough products are positioned, experienced, and adopted. Now focused on helping AI-driven products grow in signal-constrained ecosystems where precision, experimentation, and storytelling must work together.
